

## HEALTH AND SAFETY POLICY

Western Petroleum Management is committed to an effective Health and Safety program which aims to protect all employees, visitors, contractors, sub-contractors and the environment from accidents.

To fulfill this commitment to people, property and the environment, management will provide and maintain a safe and healthy work environment equal to or better than industry standards and in compliance with legislative requirements.

Our aim is to eliminate any potential hazards, which may result in accidents to personal injury, illness, or damage to any property.

Managers, employees, supervisors and any contractor at all levels are responsible and accountable for the company safety initiatives. All employees will perform their jobs in accordance with established safe working practices and procedures and in line with government legislation.

Management supports full participation in the health and safety program by all employees and will provide the proper equipment, training, meetings and orientation. Our Goal is to enjoy a safe and healthy workplace free of accidents to either personal or property.

President:   
Bernard Cabot
