To Whom it May Concern:

Adanac Oil & Gas Limited has contracted Western Petroleum Management Ltd. (WPM) to perform a well conversion project, and abandonment operations on several of its wells since 2016.

The WPM staff have extensive knowledge in these areas and were committed to seeing the projects through to their conclusion. They managed the projects very efficiently with good cost control and were committed to meeting safety and environmental regulations, policies and best operating practices.

Adanac will not hesitate to work with WPM again with future projects and highly recommends them.

**Yours truly,
Adanac Oil & Gas Limited**
