RE: Letter of Reference for Western Petroleum Management Ltd.

To whom it may concern,

Please accept this correspondence as an endorsement and letter of reference for Western Petroleum Management Ltd. and its President, Bernie Cabot.

MLC is land development management company creating communities throughout Edmonton and area. In 2018 we engaged Western Petroleum Management to help us in the reclamation of a problematic well in one of our neighbourhoods.

Bernie and his company have been instrumental in helping us navigate, understand and resolve this difficult issue. I have no reservations endorsing Bernie, his company and services and would readily use him again at the next opportunity.

Should you have any questions or concerns please contact the undersigned at 780-909-4903.

Best regards,

Chris Nicholas  
President MLC Group
