Gentlemen,

On behalf of Valparaiso Energy Inc., we would like to thank you for your excellent performance, service and cost efficiency with respect to the well abandonments and site reclamation completed on our behalf.

Western Petroleum Managements innovative business model with regards to abandonments and the efforts of your team in working with the AER and your suppliers, was instrumental in the successful abandonment of 100% of our wellbores and the ultimate recovery of substantial funds from the AER. To achieve this without any up front financial capital requirements from Valparaiso was truly remarkable.

Mr. Wylie and I will be happy to contact any of your customers to recommend your excellent work.

Yours truly,

William J. Wylie
